Booklet 3

Homework.

Week: 3

Access leading from the court where the court of the cour

Reading

Write a literary description which describes the setting of a book you are reading

Create an artwork of the setting of a book you are reading.

Writing

Write a persuasive text about why voting in elections should be optional.

Write a discussion about the advantages and disadvantages of siblings.

Language/Vocabulary

Draw a picture of a famous fairy tale character. Around your drawing, use noun groups to create rich descriptions of your character e.g. her long, green, warty nose.

Draw a picture of a haunted forest. Around your drawing, use noun groups to create rich descriptions of your setting e.g. the skinny, reaching tree branches.

Number and Algebra

Write 5 real-life word problems involving 1-digit by 2-digit multiplication. Use a writter strategy to solve each problem. Show your working.

Divide a block of chocolate between each member of your family. How many pieces does each person get? Are there any remainders? Draw and explain your working.

Measurement and Geometry

Make a list of activities that take approximately one hour to complete. Time yourself completing one of these activities to see if you were correct.

Use toothpicks and blu-tack to create a square-based pyramid. Use your model to help you draw the net for your pyramid.

Statistics and Probability

Observe and record the type and number of cars that drive past your home during a half hour period.

Use a weekend weather forecast to determine the type of activities you could do as a family.

Becall bound towns of the blance thomas papers towns towns

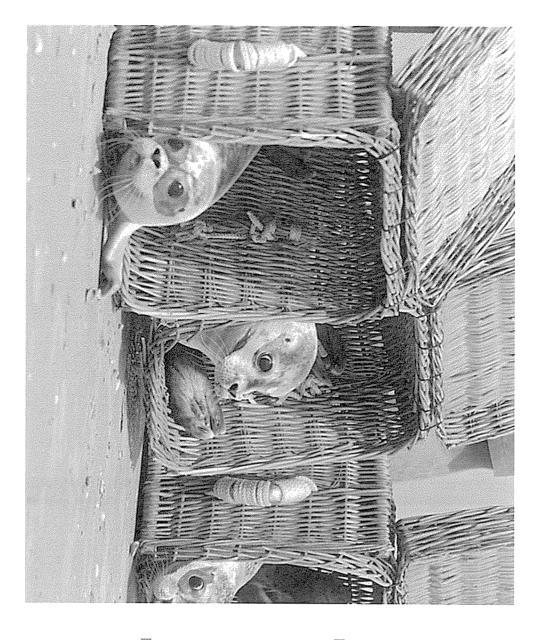

Earth and Space Sciences

Create an informative poster explaining all the ways that the sun provides energy for planet Earth.

The Arts

Create an artwork using different types of lines. Write a paragraph to explain your artwork.

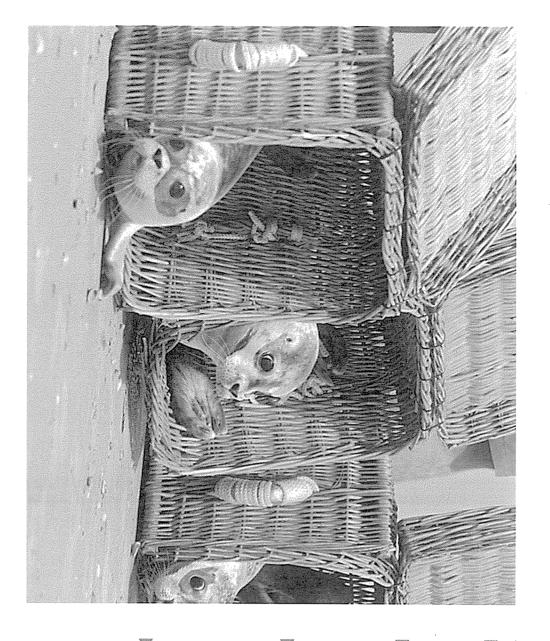

Story starter!

- It had been a long and perilous journey. The three brothers had travelled for days, each in their own confined and cramped space, each unsure if they would ever see each other again.
- Edging cautiously out into the blinding sunlight, they peered around at their new and unfamiliar surroundings.
 Relief flooded each of their bodies as they finally set eyes on each other again, but with the relief came fear, trepidation and uncertainty.
- Where were they? Would they be safe here?

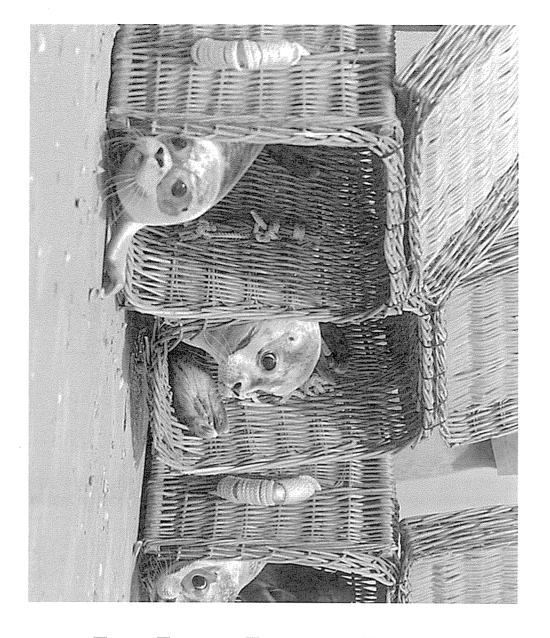

Sentence challenge!

- Can you use abstract nouns to describe feeling?
- Try to use 3 abstract nouns at the start of a sentence to describe a character's feelings?
- e.g. Fear, isolation and heartbreak surged through his body as he edged into the sunlight.
- Relief, joy and warmth spread across their faces as they saw each other again.

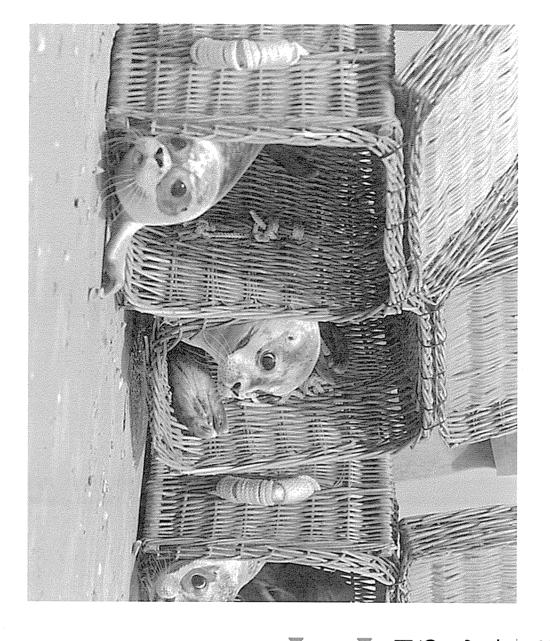

Question time!

- What animals can you see in the picture?
- Should animals be kept in captivity?
- Can animals form relationships in the same way that humans do?
- Would you rather be in an enclosed space or an open space? Why?
- Will these animals be safe now?
- Who are the people standing in the background?

Sick sentences!

These sentences are 'sick' and need help to get better. Can you help?

- The seal looked out of the basket.
- The sun was shining as the seals went outside.

Draw what the seal's environment may have been like before and what it is like now.
Think about what the differences might be.

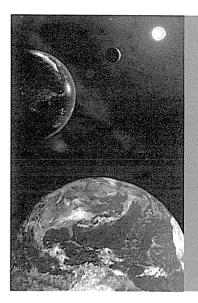

Planet Earth

/ Ce

We all live on Earth...why? Well, Earth is the only planet in our solar system that has all the things we need to survive: 21% oxygen in the air to breathe, water to drink and all at just the right temperature warmed by the Sun. Its name comes from the Old English word 'ertha' and the Anglo-Saxon word 'erda' which means ground or soil.

The Blue Planet:

Earth, the third planet from the Sun, is referred to as 'The Blue Planet' because of how it looks from space — blue. This is due to the fact that over $\frac{2}{3}$ of the Earth's surface is covered in water.

Did you know?

Age: approximately 4.54 billion years

Diameter: 13,000 km

Distance to Sun: 150,000,000 km

Surface Temperature: 15°C

Highest point: Mount Everest 8.8 km

Lowest point: Challenger Deep 10.9 km below sea level

I'm Spinning Around:

The Earth spins on its axis once every 24 hours — that's what gives us day and night as we spin to face the Sun and then away from it again. You wouldn't notice but the Earth's spin is actually slowing down by 17 milliseconds per hundred years. Eventually this will lengthen our days but it will take around 140 million years before our day will have increased from 24 to 25 hours. I wonder if children 140 million years from now will have an extra hour at school.

Whilst it is spinning, the Earth is also orbiting The Sun, which takes 365 ¼ days to do one full circuit. This gives us the length of our years. Our seasons are also dependent on the orbit of the Earth as our planet is tilted at an angle. This means that around one side of the Sun we are tilted towards it — giving us warmer temperatures and longer days...our summer. However, around the other side of the Sun we are tilted away from it giving us less light and cooler temperatures — this is our winter. All in all, it's a pretty amazing planet and I, for one, am glad to call it home.

Questions About Planet Earth

1. What percentage of Oxygen is in the air we breathe?
2. What is the highest thing on Earth?
3. How long does it take the Earth to spin once on its axis?
4. Will the Earth always spin at this speed? If not, how will it change?
5. How many planets are between us and the Sun and can you name them?
6. Why do we experience summer around one side of the Sun?
7. Why is Earth also called 'The Blue Planet'?
8. What 3 things make it possible for us to survive on Earth?

9. Why do we need to add an extra day to our year every 4 years?	
10. Which fact or piece of information has amazed you the most and why?	

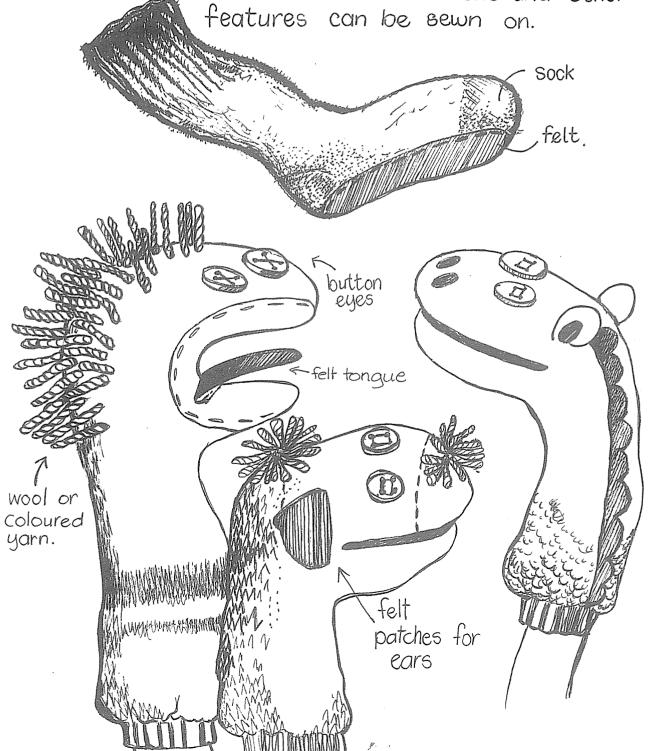

ooo SOCK RUPPETS

What You Need:

Sock, wool, cotton, felt patches, needle, buttons and material scraps.

What You Do:

Sew a piece of felt between the toe and heel of the sock. This acts as the mouth. Buttons and other

Correcting Spelling Mistakes 3

The spelling mistakes in these sentences have been circled. Write the correct spelling for each circled word in the box.

1.	I won a trophy at the art compitishon.	
2.	She apolagised for upsetting her friend.	
3.	Use your sissers to cut out the picture.	
4.	My little sister can be very (norty)	
5.	My teacher helpt me to solve the problem.	
6.	My neybour looks after my dog when I am away.	
7.	He is a genuin and honest person.	
8.	The awdiense cheered loudly at the end of the performance.	
Εa	ch sentence has one word that is incorrect. Write	the correct spelling of the word in the box.
1.	He rudely interupted the politician's speech.	
2.	He proudley pinned the medal on his friend's uniform.	
3.	The tall women went to visit her aunt in hospital.	
4.	We kept our old possessions down in the celler.	
5.	Many special events such as Valentines Day fall in Febuary.	
6.	On the anniversery of the great battle, many people paid their respects.	
7.	What she did was totaly unforgivable.	
8.	Alltogether, there were twenty people on the soccer team.	

Correcting Spelling Mistakes 6

The spelling mistakes in these sentences have been circled. Write the correct spelling for each circled word in the box.

1.	He is very fortunet to have such good friends.	
2.	I cut a large wege of cheese.	
3.	I turned on the light (swich.)	
4.	The awther visited our local library and signed my book.	
5.	He had an operashion on his leg and was able to walk again.	
6.	I(bort)a new pair of trainers with my allowance.	
7.	The bowler used a very unusual techneek.)	
8.	I tied the ribon around the present.	
Ea	ch sentence has one word that is incorrect. Write	the correct spelling of the word in the box.
1.	He guest the answer and luckily was correct.	
2.	Her cat was especialy fond of snuggling up to her in the evening.	
3.	The jewellary thief stole many precious diamonds.	
4.	We all enjoyed our meal at the exspensive restaurant.	
5.	The gilty man confessed to the crime.	
6.	It is important to take accurat readings during scientific investigations.	
7.	It was an exhausting match agenst a very strong side.	
8.	With guidance and support, we can acheive anything.	

Write a <u>convincing</u> letter to your teacher, telling why this frog would make the ideal classroom pet.

100 POINTS of family fun YOUR CHALLENGE IS TO SCORE A TOTAL OF 100 OR MORE POINTS

Read a book of restaurant' where thelp fold and put away the washing. Create a kindness flyer to pin up somewhere in your local community. Read a book of restaurant' where kids decide on the menu, help cook the food and clean upl Clean out your cupboard and prepare a bag of clothes or toys to donate to charity. NUMBER SET 1

- 1. Regroup 425 hundreds and 8 tens as one number.
- 2. What number squared equals 36?
- 3. 7 × ____ = 42
- 4. 30 ____ = 14
- 5. Share 56 equally among 8. _____
- 6. 5+5+5+5+5=
- **7.** What is the value of 6 in 36 729? -
- **8.** Is 20×10 more or less than 100? ____
- **9.** What decimal fraction is shaded in this diagram? _____

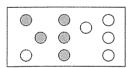

- **10.** Counting on by 5s, what is the next number after 168?
- 11. If $\frac{5}{8}$ of a shape is shaded, what fraction is not shaded?
- **12.** 100 less 20 is _____.
- **13.** I spent $\frac{1}{4}$ of \$2. How much was left?
- **14.** \$1.50 × 4 = _____
- 15. Double 45. ____
- **16.** 1245c = \$____.

NUMBER SET 2

- 1. 346 × 3
- 2. 285 × 4
- 3. 558 - 232
- 4. Write 406 hundreds and 8 tens as one number.
- 5. $45 \div 9 =$
- 6. 100 53 = ____
- **7.** The sum of 28 and 38 is _____.

- **9.** Counting back by 3s, what is the next number I would say after 401?
- **10.** Write the largest number possible with the digits 4, 6, 5, 1 and 3.
- **11.** I have twenty 20c coins and five 10c coins. How much have I altogether?
- **12.** I bought 4 pencils for 55c each. How much was my change from \$5?
- **13.** What decimal fraction of this diagram is shaded?

- **14.** If 7 items cost \$3.50, how much will I pay for 5? _____
- **15.** After paying for the 5 items in question 14, what will be my change from \$5? _____

Working Mathematically

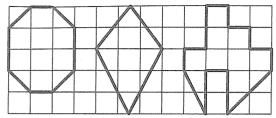

The number I am looking for is larger than 6 000 and smaller than 7 000. It is an even number, and has 4 in the hundreds column and 8 in the tens column. The ones digit is greater than 6 and less than 9.

What is the number?

Explain how you reached your answer.

MEASUREMENT

Count the squares to find the areas of these irregular shapes.

- 1. ____ 3. ___
- **4.** A square has an area of 9 cm². What would the length of a side be?
- **5.** A rectangle has an area of 10 cm² and a length of 5 cm. How wide is it?
- 6. ____ millilitres = 1 litre
- 7. 3 L 270 mL = ____ L

How many 50 mL containers filled with water would be needed to fill containers holding:

- 8. 100 mL? ____
- 9. 250 mL? ____
- 10. 1 L? ____

SPACE

Draw the result of a *flip*, *slide* or *turn* on the following shapes.

- 1. 1
- 2.
- 2. <u>/</u>
- 3. **A** turn 90°
- 4.
- slide

slide

flip

- 5. 🛮
- flip
- 6.
- turn 90°
- 7.
- slide
- 8.
 - flip
- 9.
- turn 90°
- 10.

Working Mathematically

Michael had only two containers, and neither had graduations marked. The first would hold 5 L when full and the second 8 L when full. Michael needed exactly 3 L of water for a mixing experiment. How could he do it?

See What is the problem

Plan What strategy will you use?

Do Working

Check Have you measured exactly 3 L?
